

# ARCHIDEX<sup>®</sup> 09

The Region's Premier  
**ARCHITECTURE  
INTERIOR DESIGN  
& BUILDING EXHIBITION**

10th Malaysia Architecture, Interior Design & Building Exhibition

2 - 5 July 2009 • 11am - 7pm • Kuala Lumpur Convention Centre • Malaysia

## SHOW PREVIEW

### MESSAGE FROM THE PRESIDENT OF PAM

PAM 2009 Convention kick-starts this 2-5 July 2009 at Kuala Lumpur Convention Centre, Malaysia, to congregate PAM members and architects, interior designers, quantity surveyors, engineers, developers, contractors and other building fraternity professionals, all at this one place to build networks, share views and news, source for products and participate in new product launches.

This four-day event brings together ARCHIDEX 09 (10th Malaysia Architecture, Interior Design and Building Exhibition) and several other important and exciting events, held concurrently at this Convention Centre.

ARCHIDEX 09 will showcase more than 800 booths by over 300 companies, locally and from abroad in 6 halls of the Convention Centre. The exhibition is the best platform to source for innovative products of high standards, designs and services for architecture, interior design and the built environment. For the first time also, Austria is the Country Partner of ARCHIDEX 09 and will showcase products and services of some highly reputable Austrian companies.

PAM's annual International Architectural Design Conference - **Datum** :KI 2009 on Basic Design: the new intelligence? and KI Design Forum 09 brings together fifteen reputable local and international architects and designers. A new addition in this year's Convention is the **Green Building Forum**, where the latest issues in green design and green building index shall be presented and discussed.

I take this opportunity to extend a warm welcome to our local and foreign delegates and speakers of DATUM: KL 2009, KL Design Forum 09, Green Building Forum and exhibitors and visitors of ARCHIDEX 09. These exciting events lined up for PAM 2009 Convention will be beneficial for the industry and its professionals.

Besides that, Architects attending several of the events in the Convention are entitled up to 12 CPD Points. There will be a whole series of cocktail evenings for architects and interior designers and the building industry professionals such as the Architects' Day, PAM Members' Night and the Professionals Networking Evening on 3 July and Designers' Day on 2 July. The Building Industry Dinner and Architectural Site Visits will be held on 4 July and 5 July respectively, while the inaugural ARCHIDEX 09 Golf Challenge Trophy will be held on 1 July as a Pre-Convention event.

On behalf of PAM, I wish success to all the participating exhibitors at ARCHIDEX 09 and delegates to PAM 2009 Convention.

Thank you.

**AR LEE CHOR WAH**  
President PAM

### CONCURRENT EVENTS

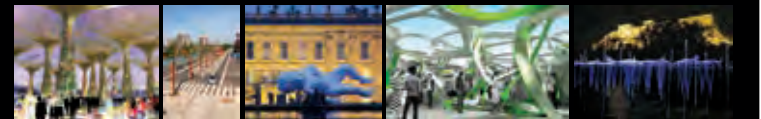

2 JULY 2009 (MORNING SESSION)

### GREEN BUILDING FORUM 09

2 JULY 2009 (AFTERNOON SESSION)

### KLDF09 KUALA LUMPUR DESIGN FORUM

3 & 4 JULY 2009

### DATUM:KL2009 BASIC DESIGN: THE NEW INTELLIGENCE?

### STAY AHEAD IN THE ARCHITECTURE, INTERIOR DESIGN & BUILDING INDUSTRY

ARCHIDEX 09 is recognised as the region's annual premier exhibition for the architecture, interior design and building industry.

This year, the exhibition involves the participation of more than **300** companies from **9** countries, covering **800** booths spread out over **6** Halls.

**TS EXIM SDN BHD**

\*Applicable for Architects and Interior Designers visiting the exhibition. Terms and Conditions apply.

### GREEN BIZ @ ARCHIDEX<sup>®</sup>

This event involves technical talks of Green Product information presented by exhibitors. It is an opportunity for the profession to update and gain the latest insights on eco products that are relevant to the built environment.

### ARCHIDEX<sup>®</sup> LOUNGE

The Lounge is exclusively for use by PAM Members, Architects and Interior Designers to interact and build networks. Located in Exhibition Hall 2, coffee/tea will be served and this is also the place to submit Visit & Win entries to win CAD software.

**Dulux** ARCHIDEX Lounge is sponsored by ICI Paints (Malaysia) Sdn Bhd.

### EXPOSÉ @ ARCHIDEX<sup>®</sup>

EXPOSÉ is set in a dark ambience in Exhibition Hall 5. See, hear and feel the different concepts and industry trends. Be mesmerised, inspired and captivated.

### CPD POINTS

Architects attending the exhibition and items marked (★) are entitled up to 15 CPD Points.

### NEW PRODUCT AWARDS

Be the first to see the new products here at ARCHIDEX 09. There will be more than 52 new products that are nominated by selected participating exhibitors. Judged by a panel of juries, products that are accomplished through design, innovation and technology will be conferred the New Product Award.

### EXHIBITION HOURS

2-3 July (11am-7pm) – Trade Days

4-5 July (11am-7pm) – Trade, Public & Student Days

Registration is required for admission to ARCHIDEX 09. Please register at the Registration Counter, Grand Ballroom, Level 3.

**ADMISSION IS FREE AND OPEN TO PERSONS 16 YEARS OLD AND ABOVE**  
Proper Business Attire is required. The Organisers reserve the right to refuse entry to any person/s at their discretion.

Over **6,700** Architects, Interior Designers,  
Developers and a total of **25,200** visitors  
from **46** countries visited ARCHIDEX 08.

## DATUM:KL 2009

### BASIC DESIGN: THE NEW INTELLIGENCE?

**DATE** 3 & 4 JULY 2009 **VENUE** PLenary HALL, KUALA LUMPUR CONVENTION CENTRE

Amid all the current architectural conformity, we still find amazement in the simple, and calm in the unselfconscious. We still understand the value of the simplest fundamentals, which, when wielded with intelligence and the integrity of process, produces remarkable work: we understand the importance of getting back to basics.

It is time to be less consumptive and more inventive, to do more with less.

The thread of continuity which runs through DATUM:KL 2009 concerns the relevant, the elegance of basic design, a time for reflection and a reassessment of those intrinsic values we as architects apply to our work.

#### REGISTRATION FEES

RM400	PAM Corporate members
RM340	PAM Graduate members
RM320	Academicians
RM260	Students (with lunch)
RM160	Students (without lunch)
RM450	Others

Architects attending DATUM:KL 2009 are entitled to 6 CPD Points

### I-VICHY BEDTUB

Immensely popular in Europe, to cater for this growing industry, Bathroom Design I-Spa has introduced the Intelligence I-VICHY BEDTUB to the world. I-VICHY new Spa facility includes an ADRENALINE SPA BEDTUB and has been the world's first Intelligent VICHY that can indulge your mind and soul in a proper way. The ADRENALINE BEDTUB series is well-designed, and by combining VICHY and BATH therapy concepts integrated with innovative technology, it creates a fascinating bathing and well-being experience for you. The ADRENALINE BEDTUB comes with an I-VICHY Rain Shower and is also integrated with the U-COLOR lighting system.

### I-VICHY THERAPY

A unique form of aqua therapy that includes the use of warm cascading water over the body. A revitalising and soothing experience. Inspired by the waters of the French city of the same name, the Vichy Spa works by stimulating the body's pressure points with jets of water. The treatment is used to improve circulation and lymphatic flows, alleviate stress and hydrate the skin. Vichy showers are typically located in a "wet room".

The innovative and luxuriously designed "BedTUB" offers useful functionality and great emotional "spa experience".

## AINO PARADISO AINOKITCHEN (MALAYSIA) SDN BHD

BOOTH 3337 – 3340 HALL 3

A kitchen island that can function as media centre which is equipped with an entertainment system including high quality sound output, an integrated LCD screen, DVD player, and online multimedia system. The worktop of the island will function as the speaker for the sound and the LCD screen can be lifted up or down from underneath the worktop.

### PRODUCT SPECIFICATION

- Modular base cabinet for island (minimum size 900mm)
- Solid surface worktop
- Integrated speaker
- Integrated 22" LCD screen with lift up and down mechanism
- Multimedia system with built in DVD player

## CARAVAGGIO POTEX INDUSTRIES SDN BHD

BOOTH 2250 & 2251 HALL 2

**Caravaggio Monte 8111** limited edition, a one piece WC from Potex, dual flush 6/3L, bottom supply operation, portrays a slick design to reflect the latest trend of simplicity, with an added fixture for soft closing of the comfortable seat. Upon request, we also offer a single flush 6L.

Potex Industries Sdn Bhd, teams up with Kelopak Gallery, Hajjah Norehan Kassim, and embarks on a new frontier - exclusive "hand painted" sanitary ware series, the first of its kind in Malaysia. All painting materials are from USA and re-firing processes perfected with collaboration with SIRIM. Potex will offer this series soon.

The design will render the artist's passion for nature and its beautiful surroundings. No two pieces will be the same and that will be the unique part of this series. The series will include a range of basins and bathroom accessories to complete the sets.

At Potex, we are very proud to bring this to the local shore, supporting a local artist whom has invested her time wholeheartedly into this project. We would like to offer to Malaysians this especially unique sanitary ware series.

# NEW PRODUCT NOMINATIONS

## CRYOLITE INNOCERA MARKETING SDN BHD

BOOTH 2278 – 2281 HALL 2

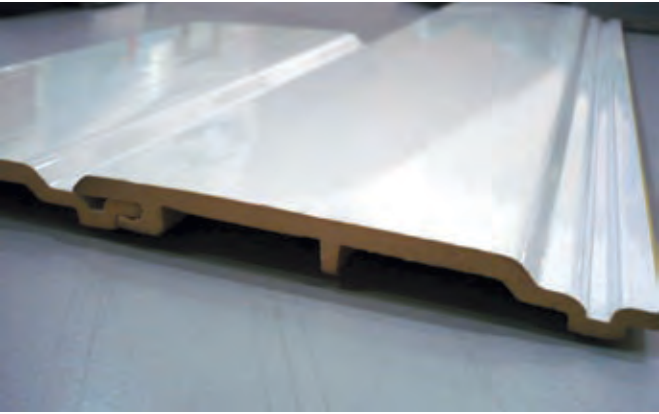

- Real One Piece (No Joints and Scar)
- 3/6 Litre Dual Push Button Actuation Flushing
- Soft Closing System Heavy Duty Seat & Cover
- Bottom Outlet 300mm
- Available S/P Trap
- 720 (L) X 435 (W) X 640 (H)

This Real One Piece CRYOLITE Wash Down WC is slick and contemporary. The exceptionally well made One Piece WC with 3/6 litre dual push button actuates flushing and 3" big flush valve with double gear

accessories completely cleans in one go and is free from the accumulation of dirt. CRYOLITE's distinctive smooth contours as well as superior finishing quality also enhances the overall appeal of the bathrooms as well as offering a superior usage experience. Be the first to try CRYOLITE!

## CT METALLIC CEILING STRIP & WALL PANELLING COMPOSITE TECHNOLOGY WOOD SDN BHD

BOOTH 6780 & 6781 HALL GRAND BALLROOM

### BENEFITS OF PRODUCT

- Metallic appearance, "cyber & modern" look
- Resistant to dents & nips
- Corrosion free
- Termite & water resistant (10 yrs manufacturer warranty)
- Economic price range
- Fast & easy installation method (plaster ceiling method)
- Bendable
- Very minimum maintenance
- 100% recycleable
- Environmental friendly

### IDEOLOGY OF PRODUCT

1. To comply to the demand of "metallic look" ceiling or wall finishes, with a cheaper range of prices.
2. Not only improve the aesthetics value, but more importantly to overcome the defects (existing products in the market), i.e. easy dented / nipped & corrosions.
3. To provide CT WOOD's existing customers wider choices on colour (existing colour series mostly wood colour).

## DULUX ECO-GUARD ICI PAINTS (MALAYSIA) SDN BHD

BOOTH 6693 - 6702 HALL GRAND BALLROOM

- **PROTECTS YOUR HEALTH**  
GreenLabel-approved paints with low fume emission

- **ANTI-BACTERIA FORMULA**  
Increases hygiene levels

- **ENVIRONMENTALLY-FRIENDLY**

Your complete "Green" interior and exterior painting system

## DULUX WEATHERSHIELD MAX ICI PAINTS (MALAYSIA) SDN BHD

BOOTH 6693 - 6702 HALL GRAND BALLROOM

The specially formulated paint for covering hairline cracks with enhanced water protection. It also comes with other product benefits like excellent colour fastness (colourlock), fungus/algae resistant and 5 years warranty against peeling, cracking, excessive chalking and fungus/algae growth.

## DUO PROFI OVEN TEKA KUCHENTECHNIK (MALAYSIA) SDN BHD

BOOTH 4347 - 4356 HALL 4

Duo Profi is a double cavity oven for multiple performances. The upper cavity operates like a standard compact top series oven while the lower cavity has been specially engineered for the most common uses in the daily cooking programmes. The dual cavity system allows cooking two different meals at the same time without any taste interference. This well accessorised oven is perfect for pizzas, stone cooking or to prepare sandwiches and toast, without flipping them over.

## ECO TUBE - LED FLUORESCENT LAMP LED VISION SDN BHD

BOOTH 5616 HALL 5

AdvanLED ECO Tube is designed to completely retrofit into existing fluorescent lamp fixture using LED lighting.

**Green Lighting** – This is a new generation of green lighting, whereby it saves more than 50% of energy. It is also very environment friendly because it does not contain harmful materials like mercury (as found in fluorescent lamps). In addition, the materials used are also recyclable. In short, it is a "True Green Lighting", compared to normal fluorescent lamps and incandescent bulbs.

**Energy Saving** – More than 50% electricity savings. ECO Tube is operated at 18W as compared to 46W for fluorescent lamps (including power consumption from ballasts).

**Long Lasting** – ECO Tube was designed to last for at least 50,000 hours. Therefore, 252pcs of surface mounted LEDs were used and an aluminum back plane was designed to transfer the heat out.

ECO Tube is unique in terms of the high brightness, low power consumption, long life and most importantly the price. ROI is easily achievable within 1~2 years. This may not be the newest invention, but it is one of the first that is able to achieve at least equivalent brightness using only 18W, while maintaining a low cost.

## ez i-HOME STARFIELD ELECTRONIC LTD

BOOTH 4402 & 4404 HALL 4

### PRODUCT SPECIFICATION

Our "Console" provides 10.4 inch Screen with 262K color to give a good Performance on Photo viewer, Video Playing. The touch screen function flat panel is to let a soft and comfort device control. It supports web browser to connect the internet, MSN conference, web mail and web radio. Two speakers give a wide range of frequency on the music playing. The console is also a portable device for easy to handle.

The Remote directly control on/off the power of lighting, air-conditioner and other appliance. The dual screens provide two separate control program and monitor your appliance at the same time.

We also provide the dimmer, multi-way switch that the front panel is changeable and customized by the user.

The Power socket and timer power socket is programmable on the Console or real time control on the panel itself.

"i-Home" is our new product of the home automation intelligent control. It connects through the wireless communication and low power consumption to monitoring your whole home appliance status. It gives a central system to manage all the power devices. Under different scene setting, you can customise lamps and appliance to turn on/off at day or night time.

## FORBO MARMOLEUM TIAN CERN TRADING (M) SDN BHD

BOOTH 5498 & 5500 HALL 5

### FORBO'S MARMOLEUM & ARTOLEUM – TRULY SUSTAINABLE FLOORING

Sustainable design is the focus of attention for specifiers, designers and end-users alike. With Forbo Flooring Systems' Marmoleum® & Artoleum® flooring, sustainability comes without compromise.

The ultimate 'green' floorcovering, linoleum is produced from renewable and sustainable resources including linseed oil, rosin, chalk & woodflour without adverse consequences for the environment. In addition, linoleum consumes very little energy during its production with consequent benefits for the climate, and is biodegradable at the end of its long life span.

Ten independent internationally recognised environmental awards speak volumes.

Tried and tested, Forbo's Marmoleum® and Artoleum® collections meet the rigorous demands of the modern world, in terms of sustainability as well as in terms of their outstanding performance and inherent health benefits.

Unlike some floorcoverings, linoleum achieves its exceptional bacteriostatic properties without the addition of harmful chemicals and does not contribute to sick building syndrome with non-harmful VOC emissions.

Topshield, an advanced water-based surface finish, ensures exceptional value with lowest cleaning and maintenance costs, while maintaining an impeccable environmental profile.

Creating healthier, more sustainable indoor environments is increasingly important and flooring choice is a key factor in helping to promote health and well-being.

Renowned for outstanding performance and durability, Forbo Marmoleum® and Artoleum® are available in a dazzling array of colours and innovative designs & textures.

## GFRG / GFRC I-NAI VENTURE HOLDINGS SDN BHD

BOOTH 1015 HALL 1

**GFRC (Glassfibre Reinforced Concrete)** is a mixture of cement, fine aggregate, water, chemical admixtures and alkali resistant glassfibres. GFRC is a material which today is making a significant contribution to the economics, technology and to the aesthetics of the construction industry worldwide. This environmentally friendly composite, with its low consumption of energy and natural raw materials, is being formed into a great variety of products and has won firm friends amongst designers, architects, engineers and end users for its flexible ability to meet performance, appearance and cost parameters. The Alkali Resistant glassfibre is generally used at the 3-5% level in the manufacture of factory finished prefabricated products either by the spray process or using traditional concrete casting methods.

### PRODUCT PROPERTIES

GFRC is one of the most popular materials used for creative prefabricated architectural features. GFRC's ability to be moulded into thin, lightweight panels with a wide variety of shapes, forms and surface finishes has been appreciated by a growing audience of architects and engineers worldwide. It can be moulded to form modern futuristic designs or to replicate traditional historic features. GFRC can be painted, faced with fine aggregates, coloured or simply left with a natural white or grey, smooth or textured finish.

### GFRG (Glass Fibre Reinforced Gypsum)

**Plastec GFRG (Glass Fibre Reinforced Gypsum)** consists of high grade Alpha gypsum, glass-fibres strand and approved silicon additive for moisture resistance properties. Its does not contain any asbestos or other inorganic fibres. GFRG has high impact strength and allows fabrication of strong, durable and resilient gypsum products, its fire resistance complies with the building authority fire code. Hence with superb fabrication flexibility and fast installation, it is ideal for variety of architectural applications.

## GLAZE COAT MAGIC SUZUKACOAT (M) SDN BHD

BOOTH 6757 – 6759 HALL GRAND BALLROOM

### GLAZE COAT MAGIC

GCM is the new product of SUZUKA, where the distinctive resin with high-end technology is being synthesised.

GCM with more layers gives a new look to the tactile displays than normal

exterior painting or ceramic tiles. It elaborates the texture, attractiveness and glamour effect of natural stone, and enhances the prominent value on the buildings.

GCM surface possesses the excellent pollutant resistant and great durability as well as the convenient coating process.

# NEW PRODUCT NOMINATIONS

## HAVA INTEGRATED BIDET WATER CLOSET

LG GLOBAL BUILDING MATERIALS (M) SDN BHD

BOOTH 4343 – 4346 HALL 4

### 3 TYPES OF WASH FUNCTIONS

- **Normal Wash**  
Medium size nozzles
- **Lady Wash**  
Fine & soft nozzles
- **Purgation**  
Water injects deeply to clean rectum and very useful for constipation

Adjustable water pressure & temperature. Nozzle can be move forward & backward with 5 different types of massage pulsations.

### INTELLIGENT & USER FRIENDLY

- Seat sensor detecting the presence of a user and the control panel will be activated. This helps to avoid water from splashing out and saves electricity.
- Electronic flush function or manual flush buttons; 3L/6L. 'Siphon' flushing; strong flush power & quiet.
- Easy to use control panel & remote control model is also available.

### ENVIRONMENT FRIENDLY & PERSONAL HYGIENE

- Nozzle will automatically clean itself before each use.
- Water cleaning is more hygiene compare to toilet papers. It helps to prevent the rectum diseases.
- The water sprays do the cleaning and the blower will dry the skin. Blower comes with adjustable air temperature.
- Deodorizer blower can neutralize the bad smells to keep the toilet fresh.
- Green design; 2 power saving modes to choose. Increase the usability efficiency & reduce the waste of energy & water.

## HiPERFLOOR™ POLISHED CONCRETE

POLISHED CONCRETE SDN BHD

BOOTH 1032 & 1034 HALL 1

HiPERFLOOR™ Polished Concrete is a revolutionary flooring system for the grinding and polishing of old and new concrete floors. It is not only a method for protecting a concrete floor – in as much as a process for turning a concrete floor into a highly abrasion resistant, incredibly dense, smooth and visually appealing surface.

The HiPERFLOOR™ Polished Concrete process can be performed directly onto a concrete slab. Hence, eliminating the need for the conventional cement sand bedding before tile application. This saves material. Alternatively, it can also be cast insitu in patterns or custom colours of huge panels with control joints located far apart.

### HiPERFLOOR™ BENEFITS

Incredibly strong and hard - withstanding even the toughest traffic.

## ILLUSION

BEYOND ARENA SDN BHD

BOOTH 2296 - 2301 HALL 2

Illusion mixers are closed and only a minimal stylish joystick control can be seen. To operate, the joystick is moved and as if by magic the mixer appears from under the work surface.

The power to open the spout is generated in a cylinder driven by a low voltage electric current (12 Volts DC) from a remote joystick control and the water will not flow until the spout of the tap is in the top position. When the water is turned off the spout will remain up until the lever is activated once more.

This product concept provides a design which epitomises minimalist styling, offering a futuristic solution which is simply magic!

## INNOSHIELD PLUS

INNOGLASS SDN BHD

BOOTH 1064 – 1067 HALL 1

InnoShield Plus is an inorganic coating. It can be applied on glass, aluminium, stainless steel and other metallic surfaces. It is a 100% inorganic coating, the main composition is eco-friendly ceramics. Thanks to the hydrophilic properties of the surface, cleaning is easy. Stubborn organic dirt can be cleaned by rinsing with clean water, no detergent required. It also has features like anti-fungus, antibacterial, heat resistance up to 600°C and surface hardness up to 9H of pencil hardness. Since it requires no organic solvent, there will be no VOC gases. It can be applied both indoor and outdoor. Colour fading is no longer a critical issue, because ceramics can withstand UV and is very stable in an indoor or outdoor environment.

## INSPECTION CHAMBER

CHEZY INDUSTRIES SDN BHD

BOOTH 2275 HALL 2

The Chezy PP Inspection Chambers are SIRIM approved to BS EN 13598-1 and are manufactured to allow for easy access to the sewerage system for maintenance, inspection, rodding and the removal of debris.

It is the first product of its type in South East Asia and it is a patented product by Chezy Industries. It has features such as it is UV Stabilized, tough, impact and chemical resistant, leak proof, has an anti-slip cover and is light in weight. It also contributes to the Green Building Index.

Its advantages over the traditional brick and cement chambers are that they do not leak even with 50mm of ground settlement, 100% water and air tight connections, long life, smooth inner walls, aesthetically pleasing cover and takes one fifth the time to install. Overall, it is 25% cheaper than brick chambers and complies with BS EN 13598-1.

## INTERICAD

TS EXIM SDN BHD

BOOTH 4469 – 4472 HALL 4

### FEATURES AND FUNCTIONS

- Interior and exterior design
- High speed & powerful rendering
- New rendering engine
- Virtual reality technology
- Mass and updateable library
- Detailed working drawing
- User friendly interface
- Intelligent 2D to 3D conversion
- Output of various renderings
- 3D modeling function/ furniture design
- Material/ texture and object edit in 3D scene
- Various tile layout function
- Innovation presentation tool
- Instant render
- Label
- Lighting edit and control
- Clone

With 13 years of successful history, InterCAD software was made to produce great results in generating 3D interior drawings. The latest virtual reality technology unique to the software makes design easier, faster, and the outcome is 90% close to reality. The multi-function software provides interior & exterior design, working drawing, furniture design, 3D modeling and more.

## JELI BLUNERO

DIMENSI TIMAL SDN BHD

BOOTH 2225 HALL 2

Jeli Blunero granite is a dense semi-metamorphic igneous rock. This granite has the ability to take a good gloss polish. It is very suitable to be used both for internal and external floor and wall usage.

Since 2006, Jeli Blunero has been used in a number of projects locally. Recently, Jeli Blunero has been exported to China, Italy and Thailand.

"JELI BLUNERO" is the only Malaysia export quality grade granite which is homogenous, has a characteristic of coarse grained texture with bluish-black tonality. This reasonably priced granite has a distinct texture and consistent in colour and pattern which is comparable to the Italy's "Serizzo Granite". It does not have any defects such as black spots or veins except for very rare occurrences of black patches.

## KANSAI ALES AB CLEAN

KANSAI COATINGS MALAYSIA SDN BHD

BOOTH 6731 – 6733 HALL GRAND BALLROOM

Ales AB Clean by Kansai is a superior hygiene paint that effectively removes potentially harmful germs and bacteria on your walls. In short, it kills germs by simply painting the wall.

The key element in Ales AB Clean is the Nano Silver Technology. Silver is widely used in many medical applications, largely due to its non-hazardous properties and its anti-bacterial abilities in low concentration.

Upon contact of germs on the wall painted with Ales AB Clean, its organic anti-bacteria agent functions against them and impedes their metabolism, thus exterminating them.

Ales AB Clean is tested and certified by Sirim Qas and PSB (Singapore) under a novel procedure based on the Japanese Industrial Standard (JIS Z2801:2000).

### DESIGNED USE

For protection of old and new plastered walls where hygiene surface is required, eg. Medical Institutions, F&B preparation areas and Residential.

NB: For optimum results, this product must be primed with appropriate primer.

### PERFORMANCE

- Effective Against:
  - Methicillin-resistant Staphylococcus aureus (MRSA)
  - Escherichia coli (E.coli)
  - Pseudomonas aeruginosa
- Bactericide activities increase when wall is washed or scrubbed
- Wide choice of colours
- No added lead or mercury

### FINISHING

**Colour :** Please refer to Colour Card  
**Finish :** Sheen  
**Pack Size :** 4.5 & 18 litres

## KLEENGARD

GARD INC. SDN BHD

BOOTH 3333 – 3336 HALL 3

Being first and only in the market, our latest Kleengard SD-280 features an all new revolutionary stainless steel UnderCutter located beneath the grind ring. It efficiently cuts and snips fibrous food waste into small particles that promotes better flow through the drain line, virtually eliminates any jams and blockages.

## KONECTO - FLOATING RESILIENT PLANK FLOORING

VERTEX SERVICES SDN BHD

BOOTH 5517 & 5519 HALL 5

Konecto is an innovative new concept Resilient Flooring which can be installed on floating basis using the latest inter-locking technology system.

Unlike other type of floorings, Konecto is easy to install and requires little-to-no sub-floor preparation, additional materials and/or preparation for installation. Just simply install it straight over most hard surface subfloors with a knife.

This high tensile system ensures no gapping and avoids the need for messy glues, nail process etc.

Konecto's hard wearing embossed surface is much more scratch resistant and durable than timber flooring yet it is so authentic that it looks almost real.

### AMONG THE ADVANTAGES ARE:

- **100% waterproof**
- **100% against termite attack**
- **100% guarantee against chips or cracks**
- Natural wood flooring look and feel
- Suitable for most sub-floor surfaces and conditions
- No under-laying materials required
- No glue, nails, etc required
- No skirting and profile required
- Extremely easy installation
- Usable directly after installation
- Easy to remove and reinstall to other location
- Minimal wastage on installation
- Quick and clean handling
- Extremely quiet walking on them
- Scratch and household chemical resistant
- Soft and comfortable underfoot
- Easy maintenance and replacement

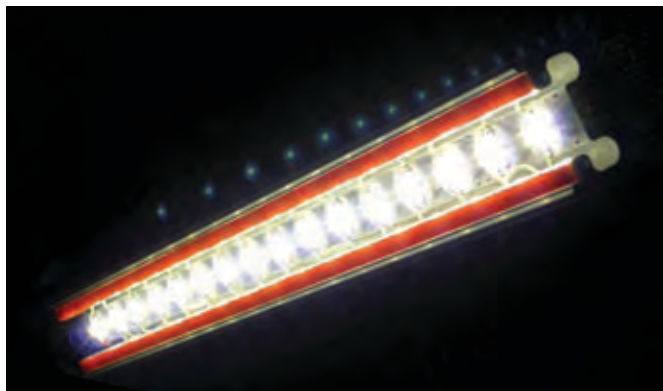

# NEW PRODUCT NOMINATIONS

## LED LIGHT BAR

POWERMICRO TECHNOLOGY SDN BHD

BOOTH 5592 – 5595 HALL 5

As an eco-friendly product, the PowerLux LED Light Bar produces low heat without emitting harmful UV and infrared radiation, and does not contain toxic substances such as mercury.

Driven by energy-saving high powered LED emitters with 24 bit colour, the LED light bar is ideal for architectural, decorative as well as general lighting, replacing fluorescent lighting with dimmable function and colour temperature ambience control.

Available in saturated vivid colour, the 50,000 hours life span of the LED Light Bar omits high maintenance costs, and subsequently increases the revenue generated from the cost savings on electricity and maintenance expenditure.

PowerLux LED Light Bar can be operated as a standalone light or to a master slave with built-in pre-programmed effects or directly operated by a standard DMX controller. Each module can be individually programmed for more dynamic lighting effects. As a standard collimator, the LED light bar provides precise light distribution and uniform illuminance. It can be installed at any distance from the point of power supply without data degradation.

The slim and narrow body of PLB-450 & PLB-900 enables the luminaire to fit easily into narrow coves, light boxes, signages back lighting or for general surface installations.

## LIQUIDRENDER 2000

LAFARGE MALAYAN CEMENT

BOOTH 6734 - 6737 HALL GRAND BALLROOM

Ever had problem with wall surface cracks and unsightly efflorescence patches?

LiquidRender 2000 will solve the problem for you.

LiquidRender 2000 is a flexible coat that is trowel applied on cement rendered walls prior to application of emulsion paint system.

On settling it will provide an excellent surface finish grade. Its unique properties prevent the formation of wall surface cracks and block the emergence of efflorescence.

Consider LiquidRender 2000 in your next project to lift the appearance of your wall finishing.

## MANLAPENE ARTIFICIAL ICE SKATING RINK

DSP (M) SDN BHD

BOOTH 1152 & 1153 HALL 1

The Ultimate Ice Skating System is "ICE" but it does not melt. It is an "ICE" system that specially designed for tropical environment. It is definitely a LESS EXPENSIVE and HASSLE FREE Ultimate Ice Skating system.

A private owned ice skating is no longer a dream. Now everyone can afford to have an "ice skating" system in their own yard. Manlapene provides the

same gliding effect as real as ice, guaranteeing 'real ice' skating sensation at all times. It is suitable for commercial and residential use. The smooth surface of Manlapene helps reduce friction during high speed skating and prevents overheating blades. It has the absolute grip for great maneuverability, tight turns, accelerations and stops. The Ultimate Ice Skating system has excellent durability and remains in good condition for years.

### THE ADVANTAGES:

- Much lower maintenance costs (no electricity, no ice maintenance cost, no refrigeration)
- Safer compare to real due to the high degree of impact absorption of fall
- Reusable
- Suitable for indoor and outdoor
- Easy to install and dismantle (panels are joined together using interlocking systems)
- Environmental friendly
- Self - lubricated

## MANLAPENE SOUND INSULATION PANELS (SOUND BARRIER)

DSP (M) SDN BHD

BOOTH 1152 & 1153 HALL 1

Manlapene are lightweight closed cell foamed panels that are made from HDPE resin and is specially designed for acoustic insulation applications.

The Manlapene Sound Insulation Panels are suitable for Public application as well as Residential application. Manlapene Sound Insulation Panels prevent sound from travelling from one source to the other. The noise is blocked, reflected or re-routed in another direction.

### SOUND INSULATION PANELS - ADVANTAGES:

- Flexible, easy to cut and install
- Light-weight
- Fire retardant
- Compatible with most of the framing systems
- Colourful and attractive panels
- Modern design with permanent graphic engraved
- Versatility - Can be applied to engine enclosures and roadside sound barriers
- Environment Friendly - It is 100% recyclable
- Can be used indoor or outdoor
- Durability
- Low maintenance costs

## METAL ARCHITRAVE

GANIWANG SDN BHD

BOOTH 1143 HALL 1

New innovative architrave made from metal with various sizes and standard colours, including aesthetic finishing. Custom colours are also available.

Easy installation, low maintenance and durability compared to conventional architraves which require specific tools, nails, rivets and adhesives for installation. This new concept will also eliminate messy sites and time consumed that keeps the cost high for installation.

Imagine having a product that is so easy to use, even home owners can install it. This new approach towards home decoratives will also allow home owners to be more innovative and creative in their home interior design.

### ADVANTAGES AND BENEFITS OF THIS NEW METAL ARCHITRAVE:

- Hassle free and time saving with a few easy steps installation guide
- No nails, adhesive, rivets or specific tools required
- No further finishing required (comes in finished surface)
- Consistent in quality and workmanship assured
- Multipurpose with unlimited application
- Cost effective
- Makes old furniture look new
- Makes new furniture look exquisite
- Light weight and easily transported

This product can be used as door lining, floor skirting, wall paneling, ceiling cornice, feature walls, picture frames, mirror frames, furniture detailing and more.

## NEO-X

SCHNEIDER ELECTRIC INDUSTRIES (M) SDN BHD

BOOTH 2215 - 2217 HALL 2

### NOT JUST ATMOSPHERE, AMBIENCE...

Adding designer furniture, renewing decorative art-pieces and changing the interior design are among the many ways of turning a characterless environment into an inspiring one. However, none of these options can instantly transform a space into moody seclusion in a 360° manner. More pleasingly still, NEO-X offers a consistently eye catching design that looks every bit as perfect. Featuring striking, grey-silver or white matte surfaces and glossy surrounds, the end result is a richly textured, multi-dimensional appeal that is sure to enrich even the most stylish modern interior.

The more imaginatively you use light, the faster and more dramatically you can transform ordinary spaces into extraordinary ones by enriching and enlivening them with different moods. Built on the 2-Wire TruRetrofit Technology, NEO-X wireless lighting control system makes installation procedures no different from standard mechanical switches and no training is needed for installation. Being constructed with C-Bus Wireless technology, NEO-X adds more flexibility for a seamless integration with future interoperable system. NEO-X's stylishly designed FreeLocate and hand-held remote controller ensure you'll also never have to scramble around in the dark again!

## NIPPON ODOUR-LESS PREMIUM ALL-IN-1

NIPPON PAINT (M) SDN BHD

BOOTH 4375 & 4376 HALL 4

It is the first ever interior emulsion paint that is almost odourless and has near zero Volatile Organic Compound (VOC), which is the major source of indoor air pollutants. With almost no paint odour during and after painting, it's especially ideal for people who are sensitive or allergic to paint smell.

## NIPPON SPOT-LESS

NIPPON PAINT (M) SDN BHD

BOOTH 4375 & 4376 HALL 4

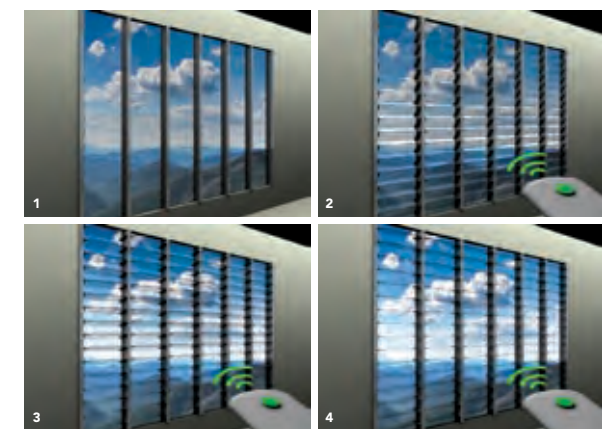

This premium interior emulsion paint, with low odour and VOC, repels all water-based stains effectively. With a special formula that makes stains form into beads, stains won't stick on the walls and can be easily removed, keeping walls clean from household stains such as tea, coffee, juices, ink, hand-marks, etc.

## OPTIMA 11A

SUN WAY ALUMINIUM & GLASS SDN BHD

BOOTH 1041 & 1043 HALL 1

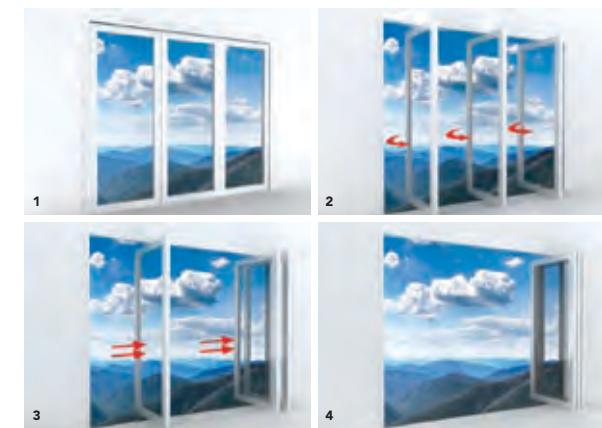

While the Optima 11A series might seem like any other ordinary glass louvre windows, it has been modified and enhanced to provide users with complete convenience and access to the windows without even touching it. Using Breezway's Altair™ Louvre Windows from Australia and upgraded with an electronic device, you will now be able to open and close the windows using only a wireless remote control. This is ideal for houses, commercial or industrial buildings which require maximum ventilation throughout the premises, especially when the windows are situated at hard-to-reach places that are high up. Optima 11A is the ideal window system that's not only stylish, versatile and functional, but so efficient that it allows you the freedom to enjoy complete fresh air without even getting off your seat.

## OPTIMA 89

SUN WAY ALUMINIUM & GLASS SDN BHD

BOOTH 1041 & 1043 HALL 1

The idea of a perfect living space has evolved so dramatically over the years. Apart from beautiful decorations and a lovely exterior, there is also a need to maximize the space of the interior that is both functional and flexible at the same time. Optima 89 is the ultimate door & partition system for any household or commercial building with its 2-in-1 feature that allows the doors to swing open and stacked with ease by sliding the door panels to the side. Optima 89 not only allows your space to be maximized but also giving you the flexibility of partitioning your space into any form or shape. The door panels come with concealed rollers and sleek designed frames, perfect for any interior. Maintenance will be so easy now with the swing and slide function; no hidden corners and hard-to-reach spots, giving you maximum convenience and comfort of your home or work premises.

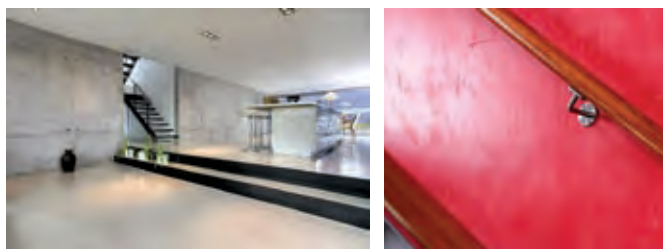

# NEW PRODUCT NOMINATIONS

## PANDOMO FLOOR & WALL DESIGNER FINISH (M) SDN BHD

BOOTH 4430 HALL 4

Room by room, PANDOMO Floor and PANDOMO Wall offer almost unlimited design possibilities. No matter whether it's the floor, wall or ceiling; everything can be freely designed and seamless, supporting the designer's overall concept.

The principle is as simple as it is impressive. The cement-based basic material creates smooth, elegant surfaces for walls, floors or ceilings. However, PANDOMO Wall and Floor really become exciting thanks to their abundance of possible variations. The basic material can be coloured using PANDOMO colour pigments to achieve any desired shade. Textures can be incorporated, areas of colour placed adjacent to each other as joint-free visuals and elements from other materials can be easily included.

**Freedom in terms of design and colour:** with PANDOMO, the architectural design becomes a defining feature of room ambience. Monochrome surfaces are just as possible as highly decorative finishes.

Various projects have been carried out worldwide in close cooperation with renowned architects such as Zaha Hadid, Büro Allmann Sattler Wappner and Professor Petzinka – in museums, hotels, public exhibitions, administration buildings and shop premises including Puma and Adidas.

- Incomparable advantages in abrasion resistance and non marking properties, withstanding even the hardest traffic such as forklift tyres. Exceptionally resistant to wear, dusting and heat
- Eliminates the need for epoxy or thin film coatings
- Options for a high gloss, mid gloss or matt finish
- VOC free, cleanable with water, providing an environmentally friendly alternative with minimal lifetime cost
- Easy Maintenance
- Clean and hygienic surface
- Long lasting

## PAR HEAT REDUCTION ROOFCOTE KANSAI COATINGS MALAYSIA SDN BHD

BOOTH 6731 – 6733 HALL GRAND BALLROOM

PAR Heat Reduction RoofCote by Kansai offers the ideal solution to insulate your roof from the heat.

The secret lies in the specially formulated pigment technology that has the ability to dissipate heat at a very rapid rate. It deflects the sun's hot infrared rays and reflects them back to the atmosphere, thus preventing the heat from being conducted to the underlying substrate, your roof. This dramatically lowers the temperature of the roof and effectively reduces the heat transfer to the building below.

It is waterproof, longer lasting, environment friendly and offers a wide spectrum of colours and outperforms ordinary roof coatings.

### DESIGNED USE

For protection and decoration of old and previously painted metal roofs and concrete roof tiles where heat reduction is required

*NB: For optimum results, this product must be primed with appropriate primer. Ensure all sides, joints and interlocks of the roof system are adequately primed. Not suitable for new glazed tiles.*

### PERFORMANCE

- Excellent Heat Reduction Property
- Excellent Fungal and Algae Resistance
- Excellent Colour Retention
- Tough Synthetic Finish – Washable
- No Added Lead or Mercury

### FINISHING

**Colour :** 6  
**Finish :** Sheen  
**Pack Size :** 5 & 20 litres

## PARQUETRY - SANTANA TANASA FLOORING ASSOCIATES

BOOTH 4379 - 4382 HALL 4

20mm thick paquetry with 8m solid wood on top of plywood backing. Designs are laser cut to precision with assortment of exotic wood species.

## PATENTED ECO-FRIENDLY WATER PRINTED WOOD PLASTIC COMPOSITE MATERIALS & PRODUCTS

JI GREEN SDN BHD

BOOTH 4466 & 4468 HALL 4

Our Patented Pre-finished Eco-friendly Water Printed Wood Plastic Composite (WPC) Materials and Products marketed under the Branding: Eco Floor, Eco Door, Eco Board & Eco Furniture will be launched in Malaysia during ARCHIDEX 09.

Our WPC products, such as floor boards, doors, table tops, cabinet doors and partition boards are printed with our Patented Water Printing Technology to create realistic wood-grain designs.

During our Water Printing process, we do not use glue or any harmful adhesive agents and our printed surface is a like tattoo that you can never peel off, unlike traditional laminated products.

By applying this Water Printing process to our WPC Materials, we have created New Materials that do not contain any formaldehyde for the Building Industry.

Our Water Printed WPC Products have Superior Surface Finishes that no other WPC products in the world can compete with.

Furthermore, our products have Superior Qualities and Cost Effective Advantages over Timber and Laminated MDF/HDF/Plywood/Marine Plywood/Phenolic Products:

- Water Proof
- Formaldehyde Free
- Resistant to Termite & Insect Infestation
- Decay/Rot Resistance & Will Not Warp
- Fire Resistance & UV Resistance
- Uses Recycled Materials

Our Technology has been featured on China's CCTV 9 & 10.

## PETALITE INNOCERA MARKETING SDN BHD

BOOTH 2278 – 2281 HALL 2

- Real One Piece (No Joints and Scar)
- 3/6 Litre Dual Push Button Actuation Flushing
- Soft Closing System Heavy Duty Seat & Cover
- Bottom Outlet 300mm
- Available P Trap
- 720 (L) X 395 (W) X 725 (H)

This aesthetic beauty and elegant look of PETALITE WC Suite shines out with its majestic look. This exquisite design of PETALITE is 100% "buatan Malaysia" and is cosy and comfy. Application of a 3" big flush value with double gear accessories enhances flushing efficiency and thereby keeping your toilet hygienically clean. This integrated WC Suite is shaped by one time whole moulding and slip casting process to achieve a feel of contemporary yet seamless one piece, which suits modern bathroom designs.

Make sure your next decision is the right one with PETALITE!

## PFEIFER VS® SLIM BOX DOCTRINE ENGINEERING (M) SDN BHD

BOOTH 1140 HALL 1

The Pfeifer VS® Slim Box sews as connection of concrete elements in case of transverse force action in vertical + parallel direction. The box consists of a construction true and stable sheet box containing the tilting-out flexible rope connection loops. Wall joints can be carried out beneficially, easily and reliably. For grouting the joint a high-resistant, very well-flowing and self compacting grout must be foreseen. Wall thickness starting from 100mm is possible.

## POTEX OLYMPIA TP 312FC / 318A GREEN

POTEX INDUSTRIES SDN BHD

BOOTH 2250 & 2251 HALL 2

Potex Olympia TP312FC/318A Green is Potex's way to support the movement of Green Building Index. The operation of the WC will be limited to 3.5L full flush, or 4.5L/3L dual flush system. This model has been marketed in Singapore with success. To add to aesthetic value, all Potex WC are bottom supply operation, with optional of soft closing comfortable seat.

Potex Olympia model is one of Potex's fastest moving products, now with simple top push button single or dual flush. In addition to the Green model, the Olympia series offers different types of cisterns to match different site requirements.

## RBM FOAM CONCRETE MACHINE

RBM BUILDING MACHINERY TRADING SDN BHD

BOOTH 1134 , 1136 & 1136A HALL 1

Cast Foam Concrete & Load Bearing Wall With Fast, Easy & Saving Cost Advance Method To Having A Straight Wall (RBM Building System)

The building of partition walls using RBM foam concrete which is good insulation and 4 hours fire rating SIRIM tested as an alternative, non-conventional methods in place of traditional bricks laying and plastering job method is now possible with the RBM Foam Concrete Machine Model RBM 1000. The technique of controlling a consistent foam mortar mix, perfected by RBM Building Machinery Trading Sdn Bhd (RBM) uses the foam concrete comprising ingredients mixed in specific compositions and pumped into formwork. Once the foam concrete dries, the formwork is dismantled and the partition walls are ready, in triple quick time!

The RBM-1000 comes in a complete system comprising mixer, hopper, pump, conveyor and foam generator. An inbuilt automatic weighing scale batches the mix that make up the foam mortar (foam, water, cement, fine sand) in the correct proportion specified for the various density as desired. A water cooling system is also incorporated in the pumping chamber to improve the workability for longer period. Besides this, RBM Foam Concrete Machine Model RBM 1000 also allows to perform other applications such as:

- Spray plastering, conveying plastering mortar
- Infill EPS foam concrete into solid internal wall / solid partition wall
- Infill reinforcement chipping concrete / design mix into column / slab / wall (Grade 20-35)
- Floor screeding ( self-leveling concrete), water proofing , grouting
- Laying bricks, tile works, repairs works, etc.

## SILESTONE® SIGNATURE MANUFACTURING SDN BHD

BOOTH 4411 – 4424 HALL 4

94% of Silestone® is natural quartz which is one of the most resistant and attractive natural elements that exist.

### HYGIENE

• The Microban technology included in all Silestone® products is specially designed by the brand itself

• Inhibits the growth of bacteria being the cause of salmonella, as well as the appearance of mould and fungi causing stains, odors or causing the deterioration of food

• Recommended for its application in areas where food is handled, as well as other products related with hygiene, such as hotels

and hospital and laboratory premises, kitchen worktops and home bathrooms, in which a very high degree of hygiene is required

• Certifications by the National Sanitation Foundation and the GREENGUARD Environmental Institute mean Silestone® Quartz is a Safer Surface for areas where food preparation takes place, while protecting the quality of your indoor air quality because it has low-to-no emission (off gassing) of toxic chemicals into the indoor environment

### STAIN RESISTANT & SCRATCH RESISTANT

• Being a non-porous surface, highly resistant to stains produced by daily use products such as coffee, lemon juice, vinegar, make-up, etc.

• Low coefficient of liquid absorption: its low level capacity to absorb liquids makes cleaning easy and guarantees a long product life

• It is even acid-resistant

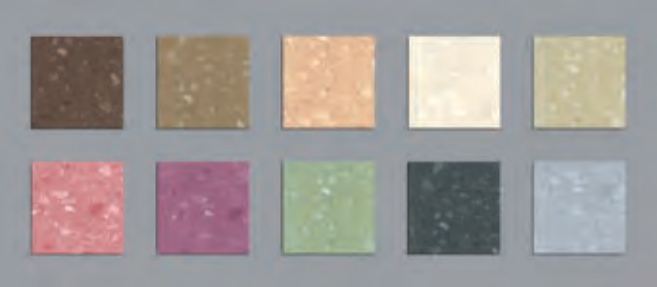

# NEW PRODUCT NOMINATIONS

## SIXNY GLAZED PORCELAIN TILES - GRANITE SERIES

SIXNY CERAMICS SDN BHD

BOOTH 2220 – 2223 HALL 2

Few natural materials are as abundant or as central to the formation of the earth's outer layer as granite. Commonly acknowledged as the signature rock of our planet, granite is the most prominent material that forms all our continents. Its use is as diverse as it is prevalent for both internal and external structures. It is no wonder that granite gave rise to the phrase 'solid as a rock'.

While granite is a desirable material for construction, it is naturally costly. For this reason, there are many substitutes in the market. Few, however, can come close to granite's stability and aesthetic appeal than Sixny's tiles, which bear all the hallmarks and characteristics of granite. To produce the tiles, Sixny Ceramics import granite glaze, which are then heated at high temperatures of up to 1230°C to produce its range of porcelain products. The super-heating ensures the material's durability and tensile strength. The tiles are then printed using Roto technology to offer three dimensional and realistic images, presenting a high glossy sheen and look that comes close to granite.

## STEAM OVEN

TEKA KUCHENTECHNIK (MALAYSIA) SDN BHD

BOOTH 4347 - 4356 HALL 4

Healthy freshness with 100% natural goodness preserved. Love your heart more by eating healthier meals with the TEKA Steam Oven, thanks to its innovative, patented 1.4 litre water tank in the upper part of the cavity that preserves 100% of the nutrients, vitamins and minerals perfectly! With 35% wider cooking space that lets you steam more in less time, now you can easily enjoy healthier, complete meals in just 30 minutes.

## STERILIZER

FOTILE MARKETING SDN BHD

BOOTH 4383 - 4388 HALL 4

**FUNCTIONS**  
Sterilizing + Drying + Storage for dishware and cutlery

110F-07A sterilizer is Fotile new model of sterilizer. The functions of the sterilizer are to sterilize, to dry and to store our daily use dishware and cutlery, keeping the hygiene level of our dishware in utmost level.

**STERILIZING MODE**  
UV Ray + Ozone + Negative ion

Fotile sterilizer uses UV light, ozone and negative ion as the sterilizing mode. It is a low temperature sterilizing method, suitable for all kinds of dishware and cutlery including glass ware, ceramic ware, plastic ware such as baby bottles, steel and wooden items.

The UV tube was designed in a 'U' shape to ensure the UV rays and the dishware keep at a distance not more than 40cm (the most effective sterilizing distance) to ensure perfect sterilizing from all angles. It also boost the generation of ozone, ensure an even ozone distribution, thus enhancing the sterilizing efficiency. The negative ion release during the drying process provides the second level of sterilization. It is able to decompose the unpleasant order of ozone, therefore making the inner cavity of the sterilizer clean and refreshing.

## STONELIGHT

STONELIGHT MARKETING & DISTRIBUTION SDN BHD

BOOTH 2226 HALL 2

Having a beautiful structure or landscape need not be expensive anymore!

Introducing the Stonelight – a luminous paving-stone that is durable up to 100 metric tonnes and makes constructive dreams come true as it can be fitted everywhere! With an easy application, it can be used for classical pavements, walls, swimming pools, step stones, in the garden, as part of a fountain or even on heavy traffic roads! It is weather, water, fire and vandalism-proof.

More importantly, it is in line with the world's vision today to stop global warming as it uses a 12V LED technology, saving vast amounts of energy. A normal 100W incandescent bulb for example, uses 416 times more energy than our W55 product! You can order the Stonelight to be made at your desired shape and size. With a life expectancy of 35 years and being a completely maintenance-free product, the Stonelight is every builders/designer's dream! Stonelight increases the aesthetic value of your building/interior while adding flavour to life and richness to your surroundings. Furthermore, coloured lighting has been proven to affect mood and is now widely used to therapeutic effect in health and beauty spas.

## SUNLIGHT SAUNAS

SAUNA WORLD SDN BHD

BOOTH 2292 HALL 2

Not all saunas are created equal. Our top priority is to deliver superior quality far infrared (FIR) saunas that last a lifetime. You will not find top of the line standards like these anywhere but Sunlight Saunas™. The Signature line features innovative firsts like Solocarbon® heaters, the only clinically proven far infrared heater on the market, patented easy magnetic assembly, deeper benches for more comfort, premium Blaupunkt® stereo system.

Sunlight Saunas™ – The World's No.1 Far-Infrared Sauna can deliver the detoxification and relaxation without having to leave the house or sit in a room with sweaty naked strangers. These indoor sauna radiates FIR heat that's a lot more comfortable than steam or wet heat and offers personal prestige and a wealth of health benefits including reduced joint pain, lower blood pressure and a chance to burn 200-600 calories in just 30 minutes by just sitting there and perspiring.

Sunlight Saunas™ creates a "greener" sauna, it provides the full sweaty sauna experience at a reduced energy cost, approximately 50 cents per session. Sunlight Saunas™ are built in a more ecologically sound manner than other saunas. They are built with tongue-and-groove construction without toxic glues and using sustainable harvested Cedar wood.

## SUNRISE RAINDROPS - BEECH CUBE WALNUT

M.E. INDUSTRIES SDN BHD

## TOP ACCESS FLOOR TRAP

SANSICO INDUSTRIES SDN BHD

BOOTH 2273 HALL 2

SIRIM Certified to BS EN 1253:2003. The 'Hansen' top access floor trap is a patented product using symphonic action to achieve very high flow rates. Its small elegant grating 100mm x 100mm together with its trap is supplied in a compact system.

The 'Hansen' floor trap is the most competitively priced top access system available in Malaysia. It has been designed to quickly discharge clear waste liquids into sewers and

to accumulate and hold debris where necessary. It is embedded in the floor slab and is ideal for all types of buildings (apartments, hotels, houses, offices, etc).

Its features are compact design, top cleaning, deep water seal, allows for higher false ceilings. Tests conducted include load test, depth of water seal, and resistance of water seal to pressure, access for cleaning, anti blockage, temperature cycling, odour tightness, water tightness of body and flow rate measurements have been carried out by SIRIM.

## TOTAL PLASTERING AND PAINTING SOLUTION (TPPS)

O.D. PAINTS SDN BHD

BOOTH 5481 & 5483 HALL 5

TPPS is an exterior total solution system for finishing product. It produces excellent consistency to exterior plastering and bare concrete surfaces. TPPS system is extremely strong, touch, weather and fungus resistant for 5 years. It is specially formulated to meet the demand for high quality plastering consistency. It is suitable for bare concrete surface, plaster, asbestos, etc.

A building has a life which is separate from whatever perspective we may have of it. It exists simultaneously within and beyond the criteria of its intended users.

The realization of any architecture is through its construction. We are at an age where appropriate techniques of construction and design are available to us on demand. It can learn from and coexist with the traditional way in construction line.

Our proposal presents our firm's ability to make good your goal. The combination of these factors has created unprecedented conditions that are totally different from the conventional way of experience:

### ADVANTAGES OF THE TPPS SYSTEM

- Quality of finished product
- Speed of work
- Efficiency of work
- Cleanliness at site
- The potential for cost savings

Hence, in view of the advantage of the TPPS system, please do contact us for a presentation or further information or assistance. We are pleased to be of service to you.

## VAULT

BG MARKETING SOLUTIONS

BOOTH 5511 HALL 5

VAULT is an innovative solution to provide electrical, data & AV access where you need it.

The VAULT power and data centre is powered by an electric drive motor with magnetic clutch that rotates the unit to the stored position when not in used and open position when in operation. The magnetic clutch device ensures reliable rotation and the ability to orient itself to the proper position. The electric drive motor can rotate more than 10 thousand times just with simple press on the button.

In the closed position, the VAULT is flush with the furniture and provides a clean and elegant look. This closed position also prevents accidental spillage of fluids into the electrical and data outlets.

The VAULT also has a photoelectric lock out that can prevent the VAULT from closing when there is obstruction on top or plug connected into the unit. This feature also avoids potential cord damage and hand injury.

The VAULT power and data centre is commonly applied on furniture, conference table, desks, workstations, hotel rooms, healthcare settings, along with other training and educational applications.

The VAULT is able to be customised to any requirements. For more information, please visit [www.bgmkt.com](http://www.bgmkt.com).

# ARCHIDEX® 09

The Region's Premier  
**ARCHITECTURE  
INTERIOR DESIGN  
& BUILDING EXHIBITION**

10th Malaysia Architecture, Interior Design & Building Exhibition

2 - 5 JULY 2009 • 11AM - 7PM • KUALA LUMPUR CONVENTION CENTRE • MALAYSIA

## INFORMATION

### ADMISSION

Admission is free and open to persons 16 years old and above. Entry is by registration only and no other form of admission will be valid. Admission for Trade Visitors is from 2 - 3 July 09 and Trade / Public / Students from 4 - 5 July 09. The Organisers reserve the right, at their discretion, to refuse entry for any person/s into the show.

### SHOW DIRECTORIES

## HOW TO GET THERE

### BY ROAD

If you are in a taxi or a chauffeured car, approach the Centre along Jalan Pinang and turn left into the main entrance (second turn after the Mandarin Oriental Hotel) for dropping off.

If you are driving, here are your parking options:

- Kuala Lumpur Convention Centre Car Park** - Take the first left after the Mandarin Oriental Hotel from Jalan Pinang up the ramp to access the car park below the Centre.
- Suria KLCC Car Park** - Exit to the Concourse Level Centre Court. Make your way past Cold Storage to the Guardian Pharmacy where there is a walkway passage to the Convention Centre. Take the elevator at the end of the walkway to the Ground Floor where you will be directed to the exhibition Registration area.

### BY TRAIN

Take the Light Rail Transit (LRT), Putra Line to KLCC station. Turn left after exiting the turnstiles and walk through the Suria KLCC Shopping Centre Concourse Level to the Centre Court. Turn left and make your way past Cold Storage to the Guardian Pharmacy where there is a walkway passage through to the Convention Centre. Take the elevator at the end of the walkway to the Ground Floor where you will be directed to the Registration area.

### BY FOOT

From the Suria KLCC Shopping Centre Ground Floor Centre Court, take the park exit into the KLCC Park and turn right. Follow along the Esplanade towards Mandarin Oriental Hotel and then follow the path around the edge of the park towards the centre of the building and enter via the Park Entrance.

Visitors are encouraged to park at the Suria KLCC Shopping Centre or travel by the Light Rail Transit (LRT) to avoid traffic and congestion.
